

CONTRA  
CONTRACTING & TRADING

ENVIRONMENTAL LEADERSHIP. ENGINEERED.

Company Profile | Qatar & the GCC

20

YEARS IN QATAR

FULL

LIFECYCLE DELIVERY

QATAR

& GCC OPERATIONS

## COMPANY

## A proven platform, carried forward

A specialist environmental and engineering business built through two decades of delivery in Qatar.

Contra Contracting & Trading carries forward the technical capability, operational experience, market knowledge, systems and relationships developed by Contra International Doha during its 20-year presence in Qatar.

## CONTINUITY

The same specialist platform, practical know-how and commitment to clients—renewed for the next phase of Qatar and GCC growth.

## LOCAL ACCOUNTABILITY

Doha-based leadership, regional reach and responsive technical support.

## PURPOSE

To engineer, deliver and maintain practical systems that improve resource efficiency and environmental performance.

## INTEGRATED THINKING

Waste, architecture, MEP, logistics, sustainability and operations considered as one system.

Following the expiry of Contra International Doha at the end of 2025, Contra Contracting & Trading assumed responsibility for continuing the platform's ongoing business activities. Project-specific contractual transfers, warranties and obligations remain subject to the relevant agreements and approvals.

## HERITAGE

# One legacy. A renewed operating platform.

Our history gives Contra Contracting & Trading depth. Our structure gives it speed.

1905

BUSINESS HERITAGE

2005

DOHA OPERATIONS

2026+

CONTINUITY

## FROM ESTABLISHED EXPERIENCE TO BOLD LEADERSHIP

### 1905 | ROOTS

Business heritage originating in Lebanon.

### 2005–2025 | DELIVERY

Two decades of projects, technical development, partnerships and client service in Qatar.

### 2005 | QATAR

Contra International establishes its Doha operation.

### 2026 | ONWARD

A focused operating platform for environmental engineering and specialist contracting across Qatar and the GCC.

## WHAT CONTINUES

- Specialist management, engineering and execution know-how.
- Established technology, supplier and service relationships.
- Project knowledge, methods, standards and delivery systems.
- After-sales service, maintenance capability and client relationships.
- A commitment to environmentally responsible and commercially sound solutions.

## SOLUTIONS Integrated environmental solutions

Strategy, engineering, technology and lifecycle care under one accountable platform.

### WASTE MANAGEMENT ENGINEERING

Generation studies, stream mapping, storage, collection logistics, equipment schedules and treatment interfaces.

### CHUTES & SORTING SYSTEMS

Refuse and linen chutes, bi- and tri-sorters, compactors, hygiene systems, fire-rated components and refurbishment.

### ENVIRONMENTAL ADVISORY

Waste strategies, sustainability inputs, planning, due diligence, audits and monitoring.

### PNEUMATIC WASTE COLLECTION

Concept and detailed design, network routing, collection stations, controls, coordination, testing and commissioning.

### RESOURCE RECOVERY

Source separation, MRFs, organic treatment, biodigesters, transfer, compaction and recycling infrastructure.

### MAINTENANCE & UPGRADES

Preventive and corrective maintenance, cleaning, spare parts, emergency attendance and asset-condition reviews.

## DELIVERY

## From first calculation to dependable operation

We close the gaps between design intent, installation quality and real-world performance.

## 01 DEFINE

Brief, waste studies, feasibility and performance criteria.

## 03 PROCURE

Technology selection, compliant sourcing and value engineering.

## 05 COMMISSION

Testing, snagging, operator training, documentation and handover.

## 02 ENGINEER

Calculations, layouts, specifications, BIM/MEP coordination and approvals.

## 04 DELIVER

Installation, quality control, programme and construction coordination.

## 06 SUSTAIN

Maintenance, cleaning, spare parts, optimisation and upgrades.

OUR PRINCIPLE | Understand the operating reality first; then select and integrate the technology.

## EXPERIENCE Capability in action

Authentic project and operational experience across the environmental value chain.

Collection fleet

Operational equipment

Recycling banks

Materials recovery

Wastewater treatment

Environmental infrastructure

## LOCAL DELIVERY, GLOBAL PERSPECTIVE

Contra Contracting & Trading combines site-level practicality with international environmental thinking. We work comfortably as a specialist consultant, subcontractor, supplier, installer, technology integrator or long-term maintenance partner.

TO LIFECYCLE CARE

## SECTORS

## Where our systems perform

High-occupancy and operationally demanding environments where reliability matters.

Transport infrastructure

Treatment campus

Residential developments

Public infrastructure

Collection operations

Ecology & planning

## RESIDENTIAL &amp; MIXED-USE

Towers, compounds, communities and destination developments.

## HEALTHCARE &amp; EDUCATION

Controlled waste flows for hospitals, schools and campuses.

## HOSPITALITY &amp; COMMERCIAL

Hotels, serviced apartments, offices, retail and high-rise assets.

## INFRASTRUCTURE &amp; INDUSTRY

Districts, public realm, logistics facilities and waste-treatment interfaces.

## PORTFOLIO

## A portfolio shaped by Qatar's growth

Selected experience carried forward through the same specialist platform.

### BARWA CITY – PHASE 1

Large-scale residential community and integrated waste-handling experience.

### LUSAIL BOULEVARD

Complex, high-profile urban environment requiring multidisciplinary coordination.

### INTERNAL SECURITY FORCE FACILITIES

Reliable and robust systems for institutional and operational environments.

### BARWA AL BARAHA

Major accommodation and mixed-use development; specialist waste-system delivery.

### LUSAIL & WEST BAY TOWERS

High-rise chute, collection, equipment and maintenance capability.

### AL RAWDAH & OTHER QATAR DEVELOPMENTS

Building-level waste handling, integration and after-sales services.

The above portfolio reflects experience developed through Contra International Doha. Detailed project sheets, roles and client references can be issued separately where appropriate.

## ADVANTAGE

## Why Contra Contracting &amp; Trading

Local accountability. Specialist depth. Environmental leadership.

**CONTINUITY WITHOUT COMPLACENCY**

Two decades of learning retained; a sharper platform for future Qatar and GCC growth.

**LIFECYCLE RESPONSIBILITY**

Maintainability, access, hygiene, controls, training and spare parts designed in from day one.

**COMMERCIAL DISCIPLINE**

Performance, compliance, capital cost and operating cost considered together.

**TECHNOLOGY-NEUTRAL ADVICE**

Solutions assessed against waste profile, space, lifecycle cost, serviceability and environmental value.

**FLEXIBLE ENGAGEMENT**

Consultancy, specialist contracting, supply, integration, commissioning and maintenance.

**REGIONAL RESPONSIVENESS**

A Doha-based platform supporting projects and operating assets across the GCC.

**THE OUTCOME**

Flexible, coordinated and maintainable solutions that create measurable value for clients and the environment.

## COMMITMENT Built for long-term performance

Our responsibility continues beyond installation and handover.

SAFE

DELIVERY

CLEAR

COORDINATION

RELIABLE

PERFORMANCE

LASTING

SUPPORT

### OUR COMMITMENTS

- Understand the requirement before proposing the system.
- Coordinate early across architecture, structure, MEP, fire safety and operations.
- Deliver safely, professionally and to agreed quality standards.
- Train operators and hand over usable documentation.
- Support installed assets throughout their service life.
- Keep environmental objectives practical, measurable and commercially responsible.

Our ambition is to build on Contra's established Qatar platform and become the GCC's trusted specialist for integrated waste-management engineering, environmental technologies and lifecycle services.

## LEAD THE NEXT ENVIRONMENTAL CHAPTER.
